ABOUT

I am a web developer with one year of experience, I gained experience in creating responsive and user-friendly websites using HTML, CSS, and JavaScript. I also have experience in utilizing various front-end frameworks such as Material UI and React.js.

SKILLS

- Frontend - JavaScript, ReactJS, Bootstrap, CSS, Material UI
- Backend - Node.js, Express.js,
- Database – MongoDB
- Others – Git & GitHub, WordPress

PROJECTS

Safe Note - Front End and Backend Development **[Link]**

- Frontend development using React.js for creating interactive, intuitive, and responsive user interfaces.
- Backend implementation built using Node.js and Express.js to handle API integrations, and database operations with MongoDB.
- User authentication: Implemented user authentication and authorization JWT.

Tech: React.js, Express.js, Node.js, MongoDB, CSS

News Web Application - Front End Development **[Link]**

- I've developed a dynamic news web application using HTML, CSS, and JavaScript.
- It seamlessly integrates with a News API to provide real-time news updates.
- Users can stay informed with the latest headlines and articles in a user-friendly and responsive interface.

Shopping Web Application - Front End Development **[Link]**

- Developing a React-based web application that fetches and displays available products using API's.

WORK EXPERIENCE

Front-end Software Engineer   **Apr to Jul 2022**

- BrainyDx Technologies at Hauz Khas Delhi.
- As a junior front-end developer, I build responsive and user-friendly websites with React.js.

Freelancer (WordPress)   **Jan 2022 to Present**

- As a front-end developer, I create responsive websites from scratch, maintain them, and implement features while working with paid or custom themes.

EDUCATION

Indira Gandhi National Open University - July 2020 - Present

- Bachelor's Degree in Computer Applications.
